

AUDIO SERVICES

Great audio evokes emotion and is crucial for successful events, from spoken word to live music. Experienced engineers utilize advanced digital sound systems and scalable speaker systems to ensure messages are heard the first time.

VIDEO SERVICES

Our LED video displays, switchers, projectors, and multi-camera productions enhance live, virtual and hybrid events with image magnification, video recording, and post-production editing.

LIVE STREAMING SERVICES

Virtually broadcast your special event featuring multi-camera production, picture-in-picture effects, public and private streaming, event archiving for on-demand viewing, and post-production editing/mastering.

CONTENT CREATION

Don't have the time or expertise to put together the presentations for your event? Don't worry, we can help you create engaging, visually appealing and consistent presentations for your event.

ENTERTAINMENT BOOKING

Need entertainment for your special event? Axians can handle that too! Let us supply a live musician, full band or DJ including stunning audio and video production.
