

EVENT PRODUCTION SERVICES

AUDIO, VIDEO & LIVE STREAMING SERVICES

YOUR EVENT IS OUR **PASSION**

We commit to creating
a worry-free and exceptional
event experience that captivates
customer and guests senses
alike, **one event at a time.**

ELEVATING YOUR EVENT

Our Services

AUDIO SERVICES

From spoken word to the nuances of live musical production, the foundation of any successful event starts with great audio. We use scalable, digital sound systems operated by highly experienced engineers to service events from a dozen people to several thousand. Nothing is more important at an event than being able to hear the presenter or artist clearly. Audio usually goes unnoticed when it is done correctly, but when audio is subpar, it gets noticed. When audio exceeds expectations, **it evokes emotion.**

VIDEO SERVICES

Our spectacular video displays, projectors, switchers and multi-camera productions combine to create engaging and memorable live, virtual and hybrid events.

- Projectors and projector screens
- LED walls for both indoor and outdoor use. Available in various sizes to meet all needs
- Image magnification (iMag) perfect for concerts, graduations, sporting events and general messaging
- Video recording and post-production editing

LIVE STREAMING SERVICES

Reach a broader audience by making your special event available virtually.

- Multi-camera production
- Picture-in-Picture, split-window and lower-third titling effects
- Public and private streaming
- Event archiving for on-demand viewing
- Post-production editing/mastering

Our recipe: Treat each and every customer as if they're our only customer.

ELEVATING YOUR EVENT

Additional Services

CONTENT CREATION

Don't have the time or expertise to put together the presentations for your event? Don't worry – we can help you create engaging, visually appealing and consistent presentations for your event.

ENTERTAINMENT BOOKING

Need entertainment for an event? Axians can handle that too! Let us supply a live musician, full band or DJ including stunning audio and video production.

REMOTE PRODUCTION

Have a keynote speaker that needs to be part of an event, but can't be there in-person? We can bring them into the event live from a remote location, or pre-record their message for seamless incorporation into the live event.
